

219 Momma's Go-To Chicken Taco Recipe

What you need

1. 2 thawed Chicken Breasts
2. Small Amount of Water to cook the chicken in (If you cook it this way)
3. Your choice of seasonings (Always a little salt and pepper, sometimes garlic powder)
4. One 15 oz. can of petite diced tomatoes with green chilis
5. One small 4 oz. can of tomato sauce

Optional Toppings

1. Shredded Cheese
2. Lettuce
3. Jalepenos
4. Avocado
5. Sour Cream

How to Make it!

1. Place the chicken breast in a [sauce pan](#) and put a little bit of water in the pan –
2. Turn on medium heat and cover with a lid
3. Flip chicken over after 4 minutes or so
4. Once chicken is no longer pink in the middle take out of pan onto a cutting board ([like this one here](#)) and shred with two forks
5. In a separate [sauce pan](#) add the can of petite diced tomatoes/chilis and part of the can of tomato sauce. (keep it nearby to add if needed) Season how you wish
6. Add the shredded chicken. If it is still dry add more tomato sauce.
7. Keep on low and let it blend together. I think it tasted better if you can let it blend for a while and sometimes even better the next day!

You can add any kind of chicken you like as far as how it is cooked. This meal is so loved my family and seriously the easiest!
